

Gulf United for Lasting Fisheries (G.U.L.F.) Certification Program

Notification of Site Visit

Global Trust Certification would like to inform interested parties of the site visit for the evaluation of the:

Louisiana State oyster fishery to the Audubon G.U.L.F. Certification Scheme.

A key purpose of this stage is to collect information on the fisheries and in particular to speak to representatives of the fisheries, fishery management and interested stakeholders.

The site visit will be conducted at locations in Baton Rouge and New Orleans between 3rd and 5th of February 2015. Should you have any information on these fisheries that you feel should be considered in the assessment, please and wish to meet the assessment team please contact us directly with:

- Your name and contact details
- Your association with the fishery/fisheries
- The items you would like to present

Please contact:
