

Gulf United for Lasting Fisheries (G.U.L.F) Certification Program

Notice of Peer Review Team Nomination

December 2015

Application submitted by the Louisiana Dept. of Wildlife and Fisheries

**On Behalf of
The Louisiana Blue Crab Commercial Fishery**

Based on the technical expertise required to carry out the above fishery assessment, Global Trust, is pleased to confirm the Peer Review team members for the fishery as follows.

Dr. Lisa Krinsky

Dr. Lisa Krinsky is Extension Faculty for the University of Florida's Institute of Food and Agricultural Sciences (UF/IFAS) in Miami-Dade County, FL. As a Florida Sea Grant Extension Agent, Lisa works with the local community in order to enhance the practical use and conservation of Miami-Dade's coastal and marine resources through informal marine outreach, education, facilitation and applied research. Lisa has focused extensively on recreational and commercial fisheries in south Florida including barotrauma in deep-water reef fish, marine debris prevalence and impacts along the Florida Keys Reef Tract and coordinating and participated in derelict trap removal events in Biscayne Bay. Additionally, she is working with colleagues to develop a Fisheries Professionalism Program for the commercial stone crab industry in Florida. Lisa received a Ph.D. in Marine Biosciences from the University of Delaware where she studied the early life-history strategies of the Florida stone crab.

Dr. Gerald Ennis

Following undergraduate and graduate degrees at Memorial University of Newfoundland in the 1960s, Dr. Ennis completed a Ph.D. in marine biology at University of Liverpool in the early 1970s. He retired in 2005 following a 37-year research career with the Science Branch of the Department of Fisheries and Oceans. His extensively published work has focused primarily on lobster fishery and population biology and on various aspects of larval, juvenile and adult lobster behavior and ecology in Newfoundland waters. Throughout his career, Dr. Ennis was heavily involved in the review and formulation of scientific advice for management of shellfish in Atlantic Canada as well as the advisory/consultative part of managing the Newfoundland lobster fishery.
